This is the one! With 5 beds, 4 baths, 3 car garage plus a finished basement, office and elegant upgrades throughout, this is one you must come and see.

Pride of ownership shines through with attention to every detail in this home. As you enter, the office area is set aside from the rest of the home making a perfect work from home location.

The main living area is an open concept and allows for great use of space between the great room, gourmet kitchen and sunroom. The incredible kitchen island will certainly be the heart of the home where friends and family can gather together. Any home chef will appreciate the 42 inch cabinets, upgraded SS appliances and custom leather-finished granite countertops. Find a unique peninsula between the sunroom and kitchen that really stands out as a dual counter between the kitchen and sunroom.
